

Tech Lead (Node.js)

What we are looking for: -

- Writing HTML, CSS, and JavaScript.
- Working with RDBMS such as MongoDB or MySQL.
- Provide leadership and mentor a group of engineers in an innovative and fast-paced environment.
- Successfully manage the daily challenges of a technical environment and guide the team in resolving technical issues.
- Manage and drive complex technical projects from the planning stage through execution.
- Perform code reviews and effectively manage the technical team.
- Understanding of microservices and distributed systems.

Requirements: -

- **B.Tech. / B.E. / MCA in Computer Science with 4+ years of experience.**
- Experience implementing testing platforms and unit tests.
- Expertise in back-end programming language JavaScript, and NodeJs.
- Expertise in front-end frameworks like Angular (preferred) or React.
- Strong backend experience in Node.js, and Javascript.
- Strong frontend experience, ideally with modern JavaScript Frameworks (React or Angular preferred).
- Exposure to Microservices architecture, Continuous Integration experience.
- Must possess exceptional analytical and troubleshooting skills, solution-focused with the ability to understand complex problems and articulate them into simple issues and solutions.
- A passion for coding and keeping up to date with new technologies, frameworks, and techniques.

Benefits of working with us: -

- Benefits of both worlds - Enthusiasm & Learning Curve of a Start-Up, Deliveries & Performance of an Enterprise Service Provider.
- Sky's the limit when it comes to learning, growth & ideas.
- We do not follow the typical corporate hierarchy ladder.
- Medical insurance, gratuity, and provident fund.
- As part of our dedication to an inclusive and diverse workforce, Kratikal is committed to Equal Employment Opportunity without regard for race, color, national origin, ethnicity, gender, protected veteran status, disability, sexual orientation, gender identity, or religion.
